How to Pass the props to the Component

Children Props :-

App.jsx

```
const App = () => {
  return (
    <Card username = "Xyz" title = "Card1" />
  )
}
```

src
↳ Components
↳ Card.jsx

```
const Card = (props) => {
  return (
    <h1> {props.username} </h1>
```

App.jsx

```
<Card>
  <h1>
  <p>
  <p>
</Card>
```

≡

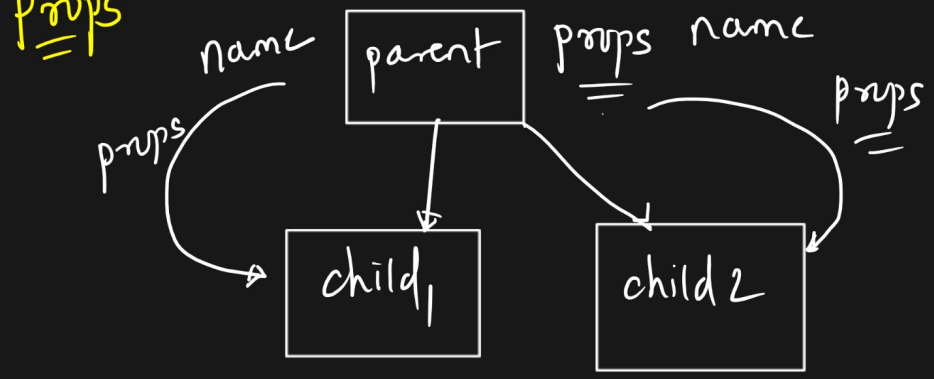

```
<Card>
```
→ props.children
↓
text
html ele
multiple ele
```
</Card>
```

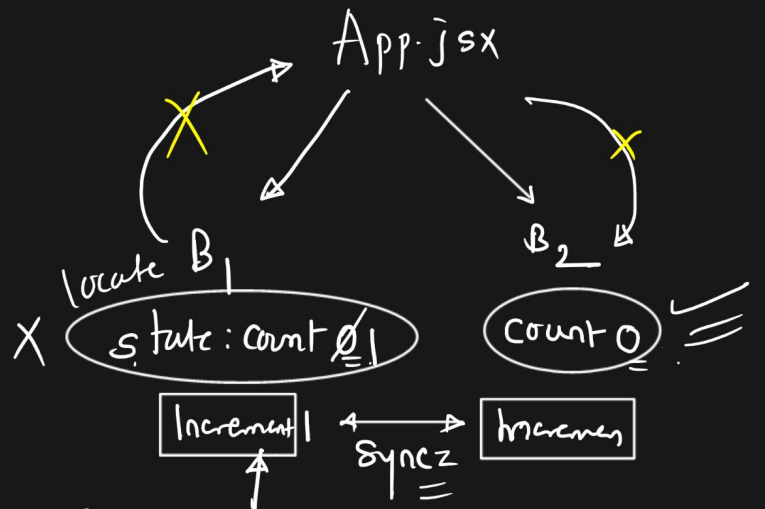

```
const Card = () => {
  return
    {<> - {props.children}</>}
}
```

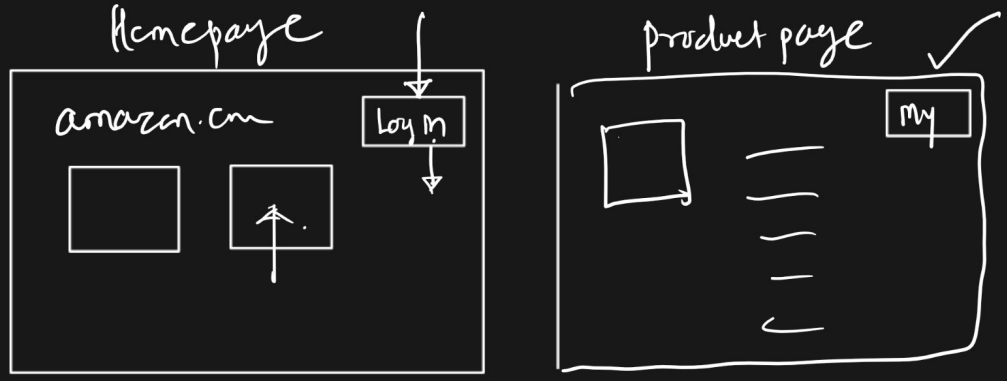

I want to pass fun^ as props to the RAFCE :-

State Lifting :-

State create ⟹ Usestate

State Lifting
